

Request For Empanelment of Agencies for Integration of Different Applications with e-Governance System (under Digital India)

Government of India has launched Digital India Initiative with main objective to ensure that Government services are made available to citizens electronically. This objective can only be fulfilled if these projects are integrated with various state government IT initiatives so as to provide a whole range of citizen centric services at citizen's doorsteps.

In line with this, NeGD has published an RFE on its website for empanelling agencies to provide technical assistance to the state and central agencies to integrate their applications with various applications provided under Digital India Initiative. It is pertinent to mention that all agencies fulfilling the technical requirement will be empanelled.

Centre for e-Governance is requesting all the Karnataka agencies competent in application integration and meeting the eligibility criteria as mentioned in the below URL
