**Sub: Workshop on Digital Locker Ecosystem**

Dear *Shri Khuntia*

This is with reference to the Digital Locker initiative taken up by the Government of India, under Digital India programme, as part of the Hon'ble Prime Minister's vision of paperless governance. Digital Locker System is a platform for issuance and verification of documents & certificates in a digital way, thus eliminating the use of physical documents.

2. Digital Locker specifications have been designed keeping in mind that the system should support various service providers and a robust ecosystem of Digital Locker service providers is created. As part of the ecosystem building, Ministry of Electronics & Information Technology (MeitY) has invited application from public and private agencies to become licensed Digital Locker Service Provider. In this regards following steps have already been undertaken:

- (i) Notification for Preservation and Retention of Information by Intermediaries Providing Digital Locker Facilities Rules, 2016 under IT Act 2000.
- (ii) Appointment of Controller of Digital Locker Authority
- (iii) Notification inviting applications for licensing of Digital Locker Service Providers.

3. In pursuant to the notification inviting applications for Licensing of Digital Locker Service Providers, Digital Locker Authority is holding a series of workshops across the country to interact with relevant stakeholders, including State Government departments such as educational boards, universities, municipal services, land records, health, transport service, etc., who are providing citizen centric online services.

4. Following are the details of the workshop:

**Date & Time:** 7<sup>th</sup> April 2017, 2:30PM  
**Venue:** Centre for Development of Advanced Computing  
 CDAC Electronics City  
 68, Electronics City  
 Bengaluru 561229  
 Karnataka
