VACCINATION FEE:

Vaccination Fee: Rs 400-00 (Rupees Four Hundred only) is charged for each dose of Yellow Fever Vaccine administered, for which a receipt will be given at the cash counter.

PLEASE READ THE GUIDELINES.

- Mandatory vaccination against yellow fever is carried out to prevent the import of yellow fever virus into vulnerable countries.
- Do not take any vaccine just before your date of departure. Give a gap of at least 10 days between vaccination and departure day.
- Vaccine is available for Indian National and Foreigners.
- All applicants must hold a valid passport to get the vaccine administered. Please carry your original Passport (as passport number is to be entered in the Yellow Fever Vaccination certificate and register)
- The validity of this certificate begins ten days after the date of vaccination and is **valid for lifetime.**
- Any amendment of this certificate, or failure to complete any of it, may render it invalid.

- Applicant is advised not to take yellow fever vaccination in case of any allergies to Egg/food articles/ medicines etc, patients on chemotherapy for cancer/ any ailment leading to decreased immunity levels, on corticosteroid therapy/ pregnancy/lactation/babies below 9 months of age.
- Vaccination will be given only for a group of 10/5/2 people as Vaccine vials contains 10/5/2 doses or else it is not possible for us to open a vial for one person.
- Yellow fever vaccine can result in fever, aches, soreness, redness or swelling at the site of injection given.
- You are requested to wait for half an hour after administration of vaccine for observation and the certificate will be provided thereafter.

Note:-

1. Have breakfast before coming for vaccine. Don't take vaccine on an empty stomach.
2. Wear loose and short sleeves while coming for vaccination as the vaccine will be given to the arm.
3. People with history of allergy to egg should inform the Medical Officer before taking vaccine.
4. People suffering from fever should not take any vaccine.
5. Persons who have taken any vaccine in the recent past should inform the same before taking vaccine here.
6. Government of India authorised Yellow Fever Vaccination centre are also there at **District Hospital, Darwad** and **Wenlock Hospital, Mangalore** in the State of Karnataka.
